AIR LIQUIDE International Internship

World leader in gases, technologies and services for Industry and Health, Air Liquide is present in 80 countries with close to 50,000 employees. Air Liquide ideas create value over the long term. At the core of the company's development are the commitment and constant inventiveness of its people.

What is the International Internship initiative?

The Air Liquide Group enables students preselected by Air Liquide entities to secure an internship to a hosting country in order to enhance their personal and professional competencies. Duration is between 2 to 6 months and can be adapted depending on the need of the structure and participants.

The Air Liquide International Internship provides the opportunity to gain invaluable insight into the day to day business and challenges of the Group's diverse operations. The International Internship initiative is truly a bonding experience that allows the students to become actors of their career development and flourish as talented young professionals.

Example of International Internships
